

JORDAN CHASE: Media Designer

Samples can be seen at www.ChaseU.com

207.632.2220 – Chase@ChaseU.com

Over seven years experience in graphic and web design with experience in film and audio production. Excellent sense of professional quality layout and aesthetics. Strives to think outside the box to invent creative solutions to problems. A valued team member and a driven leader. Detail oriented, creative and professional.

PROFESSIONAL EXPERIENCE

ChaseU Media – www.ChaseU.com (2001–);

Freelance service to prospective and recurring clients for graphic and web design (review website for examples of past work).

Fairchild Semiconductor Web Administrator/Designer (2010–)

Administered site changes, press releases, and updates and created new pages and sections of Fairchildsemi.com, including the company history page and blog. The site boasts over 300,000 hits a month. Fairchild is a Fortune 500 public corporation. Worked in Documentum, PHP, Wordpress, JQuery, Javascript, CSS and HTML.

Leighton Images Production Assistant (2009);

Worked as a production assistant for the Dempsey Challenge promotional video which included chase car driving, camera operating, lighting, and audio setup.

Wasted Minds Media Production Intern (2009);

Aided in producing, directing, and editing short films and television shows for a start up production company based in Portland, Maine. Created dynamic Flash website for a project called “Supernatural Hotspots” about the paranormal. Also designed and built the Wasted Minds Entertainment website.

University of Maine Alumni Association (2006 – 2008);

Worked closely with the UMAA President and a senior executive to re-design the UMAA website and translate the UMAA Magazine into an online version. Also created a website for the Buchanan Alumni House (buchananalumnihouse.com).

TotallyWebsites Web Design Web Designer (2004);

Worked as the lead web and graphic designer at a professional web design company in South Portland, Maine. Designed numerous websites and website elements for various businesses including totallywebsites.com itself.

Judivoice Messaging On Hold

Web Designer/Audio Engineer (2001–);

Designed logo and maintain website. Recorded and cut several audio projects including several messages on hold using Adobe Audition.

AWARDS AND ACHIEVEMENTS

Brought eventtap.com, a site that constantly updates current events in your town, from concept to completion from February to June of 2010. Learned PHP/MySQL and Javascript thoroughly in the process.

Finalist in a Top Coder Studio website template Competition (2009);

Created a television commercial for the World Food Programme’s Hunger Bytes competition which was showcased in a student exhibition (2008);

Designed primary logo elements for the town of Scarborough’s 350th anniversary which appeared on banners, coins, bumper stickers, etc in 2008. Still appears on the towns trashcans. (2005);

Achieved 1st place in the Maine Student Web Design Awards for fathers photography site, PicturesOfMaine.com (2003);
